

THIS IS A PUMP FOR WATER:

- Flow rage up to 580L/min
- Head up to 9m
- Max depth 5m below its impeller
- Good quality water pump

Working condition:

Maximum depth allowed is 5m from its centre of impeller

Liquid temperature up to +40 degree

PH figure of the water between 6.5-8.5

The grain diameter of solids in the water is no bigger than 2mm

Application

THE ELITE electric water pump is widely used in so many different areas: for house, breed aquatics, mining and construction site.

Technical Data:
